I am a dedicated, detail-oriented front-end and back-end developer with a strong interest in building scalable, reliable, and efficient systems. I focus on developing database management, well-structured server-side logic, and API Integration to support seamless user experiences. I studied at Bina Nusantara University for my bachelor's degree, developing my skills as a programmer by learning C, HTML, CSS, JavaScript, and PHP Laravel. I chose to pursue a master's degree in information systems at Bina Nusantara University's Graduate Program in order to close the gap between business strategy and technical coding abilities. I have experience working in organizational and professional environments, including as a staff member of the Learning Management Division at Bina Nusantara English Club (BNEC) and as a member of Bina Nusantara Nippon Club. I further strengthened my technical skills through hands-on experience as a back-end intern with TypeScript and NodeJS at Flash Coffee, where I contributed to server-side development and system workflows. During my time at Flash Coffee, I also experienced front-end development with NextJS for one month. I have also gained insights into supported digital product development at ALGO.CORE. With a background that combines technical implementation and an understanding of user-centered design, I am eager to grow as a back-end developer who can adapt to evolving technologies and deliver robust solutions for real-world applications.

EDUCATION

Bina Nusantara University, Graduate Program

Master of System Information, Big Data. GPA: 3.95/4.00

Relevant Coursework: Business Intelligence, Big Data, Machine Learning, Business Analytics.

NOTE: Graduated on May 2, 2026; awaiting official transcript and diploma issuance pending journal publication.

Tangerang, Indonesia

August 2024 – Present

Bina Nusantara University

Bachelor of Computer Science, Multimedia. GPA: 3.73/4.00

Relevant Coursework: Human-Computer Interaction, Multimedia, User Experience, Program Design Method, Entrepreneurship:

Ideation, Entrepreneurship: Prototyping, Software Engineering.

Tangerang, Indonesia

August 2020 – July 2024

EXPERIENCE

Flash Coffee

Back-End Developer Intern

Tangerang, Indonesia

20 February 2023 – 18 February 2024

- Develop APIs to support mobile application functionality, develop and maintain reusable code libraries, and become familiar with JavaScript (Node.js).
- Implement security best practices in the code; regularly review server code for optimization.
- Testing and writing technical documentation, designing and implementing data storage solutions, and communicating with users to understand their needs and experiences.
- Developed Front-End projects for one month with NextJS.

ALGO.CORE

Part-Time Graphic Designer

Tangerang, Indonesia

February 2021 – July 2021

- Designed presentation slides for the learning materials.
- Conducted weekly market research in designing promotional posts on Instagram.

ORGANIZATION

Bina Nusantara Nippon Club (NC)

Member

Tangerang, Indonesia

March 2022 – February 2023

- Involved in weekly D0 Japanese class and provided learning feedback to the learning authority.

BNEC Social Event 2021, "Sign Language to Hear You"

Staff of Registration Division

Tangerang, Indonesia

May 2021 – September 2021

- Promoted social events to participate in sign language awareness activities through social media.

Azzel Reyhanth Aristo

- Gathered 40+ collected data participants and created an activity report.

Bina Nusantara English Club (BNEC)

Staff of Learning Management Division

Tangerang, Indonesia
March 2021 – January 2022

- Contributed to creating the materials, quizzes, and exams for the English TOEFL Class.

TOEFL Test 2021 BINUS ALSUT

Staff of Marketing Division

Tangerang, Indonesia
January 2021 – April 2021

- Handled the promotion of the TOEFL Test through social media (Instagram & Line).
- Validated 60+ collected data participants before reporting to the TOEFL Test organizer.
- Oversaw 5+ participants and maintained prompt responses in providing solutions toward encountered issues during the TOEFL Test.

SKILLS & INTEREST

Technical: C, HTML (Hypertext Markup Language), JavaScript, CSS (Cascading Style Sheets), UI/UX Designing, NodeJS, Back-End Development, PHP (Hypertext Preprocessor), Laravel Framework, Java, TypeScript, NextJS.

Language: Native Indonesian | Fluent English (TOEFL ITP (2023 - 20 December 2025): 587) | Beginner Japanese.

Tools: Figma, Canva, Adobe Photoshop, Visual Studio Code, Dev C++, Axure RP 9.

Interests: Designing, Prototyping, Brainstorming, Ideation, Back-End Development, Unit Testing, Front-End Development, Machine Learning, Collaboration.

Soft Skills: Analytical Thinking, Team Collaboration, Problem Solving, Adaptability, Time Management, Critical Thinking, Communication, Attention to Detail.

PORTOFOLIO

Belajaritma

Tangerang, Indonesia
June 2023 – July 2024

- A learning website for basic programming called Belajaritma for thesis research using PHP (Hypertext Preprocessor) and the Laravel Framework. The Belajaritma application is a learning website that can help users learn about the basics of programming. With this application, users can study basic programming materials in video and PDF form, do assignments and final tests as evaluation material, do paid certifications for special fields, and discuss together with the forum feature.
